

CONTROL & POWER SYSTEMS, INC.

CUSTOM EQUIPMENT ENCLOSURES

Custom Control Solutions and Turnkey Automation Systems since 1979

EXPERIENCE

At CPS our strength is derived from our vast experience at providing customized solutions for the specific need for each and every client.

APPLICATION SPECIFIC

Control & Power Systems Inc. excels in providing custom designed and assembled enclosures for any application. Regardless of scale, complexity, industry or environment CPS has the capacity and expertise to furnish the highest quality enclosures, quickly and reliably for any installation.

SMALL - LARGE ENCLOSURES

From small push-button interface designs to stand-alone operator enclosures to mutli-bay systems all enclosures assembled at CPS receive strict attention to detail, conformity to all applicable codes and of course quality.

SPECIALTY DESIGNS

Whether the need is for a portable design, intrinsically safe, explosion proof, dust-proof, weather proof, any hazardous area location or general purpose installation our designers, engineers and fabrication shop can produce special designs to fit the application.

CUSTOM DESIGNS

At CPS we can provide custom designed enclosures to fit any need. Custom designs can be manufactured from carbon steel and painted to specification. Alternatively enclosures may be furnished in stainless steel to accommodate harsh environments or to satisfy sanitary requirements.

CUSTOM ENCLOSURES (CONTINUED)

FULL SERVICE INTEGRATION

At CPS we recognize outsourcing has become a vital strategy for many of our clients. CPS offers a full range of engineering services:

Complete Turnkey Engineering, ISA Compliant P&IDs, Component & Instrument Selection, Mechanical Layout & Design, Wiring Diagrams, Schematics (Electrical, Hydraulic & Pneumatic), Programming

QUALITY

Our craftsmanship is second to none and our Quality Management System (QMS) ensures every project is built, on-time, on-spec and on-budget. Additionally we use the highest quality, state-of-the-art components in every system we build.

RELIABILITY

At CPS we stand behind every system we deliver. Whether a system is built to user specifications or one developed by our in-house staff, CPS ensures the system will perform as required. Our clients have grown to trust the quality and integrity of a CPS manufactured system.

CODES & STANDARDS

Control & Power Systems Inc. enclosures conform to all national codes and standards:

*ANY NEMA Ratings: NON HAZARDOUS - Types 1,3R,4,4X,12, HAZARDOUS - Types 7,9
Purged Enclosures: Type X, Type Z, Increased Safety*

CERTIFICATION

CPS has taken the necessary steps to offer certification on our enclosures:

UL 508A - Standard Industrial Enclosures, UL 698A & B - Explosion Proof Enclosures, CUL Certification (Canadian), CE Marking (European)

CSIA CERTIFIED

CPS is a proud member of the Control System Integrators Association. The leading industry association setting the standard for controls automation.
